
Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

1:1250 scale * 1:1250 scale (photographically reduced)
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Levelled.....1951,57,67
Boundaries.....Oct 1974
O.S. SUSI revision Oct 1964 (SU 2675)

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark data, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

Tr.....Trench
tx.....Transverse Section
W.....Well
W C.....Weighbridge
Wd Pp.....Wind Pump
Wks.....Works
Wr Pt.....Water Point
Wr T.....Water Tap

SYMBOLS

Non-coniferous trees
Coniferous trees
Survey of trees
Orchard trees
Coppice, osier
Scrub
Bracken
Heath
Rough grassland
Marsh, saltings
Reeds
Slope
Rock House
Rock
Cave entrance
Sloping masonry
Ruined building
Glasshouse
Archway
Change of boundary marking
see AREAS notes
Site of antiquity
Culvert
Direction of water flow
Electricity pylon
Electricity Transmission Line
Triangulation station
Transverse tracing (continuous)
Sandpit
Surface level
Revision point
Rampion point & bench mark coincidence

VEGETATION CLASSIFICATION. Where open permits, trees and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of cover or scrub.

BOUNDARIES

England & Wales: County; District; London Borough; Civil Parish; Community (Wales); ED Bdy; Ward Bdy; Bene Const Bdy; Co Const Bdy; Electoral Division; Ward; Parliamentary Constituency

Scotland: Geographical County; County Council; County of the City; Burgh; District Council; Burgh Bdy; Dist Bdy; Burgh Const & Ward Bdy; Parliamentary & Ward; Co Const Bdy; Civil Parish

Where boundaries coincide the symbol shown is that first applicable in the order above, e.g. Bene Const & E D Bdy.

For Ordnance Survey purposes County Boundary is deemed to be that of the parish structure whether or not a parish area exists.

Non-boundary symbols adopted for England and Wales 1974.

Boundary markings

B B.....Stone of Bech
C B.....Centre of Bech
C C S.....Centre of Convert Stream
C D.....Centre of Drain, etc.
C R.....Centre of Road, etc.
C S.....Centre of Stream, etc.
Del.....Debris
E K.....Edge of Kerb
F F.....Face of Fence
F W.....Face of Wall
R H.....Root of Hedge
S R.....Side of River, etc.
T B.....Top of Bank
Th H.....Track of Hedge
Th S.....Track of Scrub
Und.....Undefined

Imperial equivalents for metric boundary markings
0·91m = 3ft 1·22m = 4ft

Made and published by the Director General of the Ordnance Survey, Southampton.

AREAS

Area measurement is on plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

4267.....parcel number
EXAMPLE: 1·809ha.....area in hectares
4·47.....area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area.....‡
Limit of area within which individual parcels are not shown.....†

To convert hectares to acres multiply by 2·471 05
To convert acres to hectares multiply by 0·404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

EXAMPLE (from sheet TQ 0929)

1. Take the two letters preceding the sheet number.....TQ
2. Take the west edge of the grid square in which the point lies and read the figure appearing on this line on the north or south margin.....050
   Estimate tens of metres from the grid line on the point (distance e).....8
   The resulting four figure number is the Easting.....0588
3. Take the south edge of the grid square in which the point lies and read the figure appearing on this line on the east or west margin.....291
   Estimate tens of metres from the grid line on the point (distance n).....6
   The resulting four figure number is the Northing.....291·6
4. The full ten metre reference is given by writing first the Easting, followed by the Easting and then by the Northing.....TQ 0588 2916
