SU 27 NW	SU 27 NE	SU 37 NW
SU 27 SW	SU 27 SE	SU 37 SW
SU 26 NW	SU 26 NE	SU 36 NW

The representation on this Map of a Road, Track, or Footpath, is no evidence of the existence of a right of way.

THE NATIONAL GRID

TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE — Caroline Cottages

The Grid Letters on this sheet are SU

EAST: Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margins. Estimate tenths Eastwards (27 / 8)

NORTH: Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margins. Estimate tenths Northwards (71 / 0)

Full 100 Metre Reference SU 278710

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, U 278710 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference 278710 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 20' West of Grid North and at the Western edge 0° 17' West of Grid North.

Magnetic North was about 9° West of Grid North in 1960 decreasing by about ¼° in four years.

Heights are in feet above Mean Sea Level at Newlyn.

1 square inch on this map represents 17·778 acres on the ground.

Boundaries which have been verified on the ground are shown in black. Boundaries which have not been verified on the ground are shown in brown.

REVISION DIAGRAM

Revised before 1930

Revised 1930-1945

The whole sheet was revised for major changes only in 1956.

Boundaries revised to 1-6-59.

Made and published by the Director General of the ORDNANCE SURVEY, CHESSINGTON, SURREY, 1960.
