

Made and published by the Director General of the Ordnance Survey, Southampton.

One grid square on this plan represents one hectare.

AREAS
Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
1.809ha area in hectares
4.477 area in acres
When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area are not shown.
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—
EXAMPLE from sheet TO 0529
1. Take the two letters preceding the sheet number TO 0529
2. Take the west edge of the grid square in which the point lies and find the figure opposite the line on the north or south margin. Estimate units of metres from the grid line to the point (distance) 408
3. The resulting four figure number is the Easting or Northing
4. Take the south edge of the grid square in which the point lies and find the figure opposite the line on the east or west margin. Estimate units of metres from the grid line to the point (distance) 291
5. The resulting four figure number is the Northing or Easting
6. The full six figure reference is then by writing first the letters, then the Easting and then the Northing
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'

COINCIDENT FEATURES ARE SHOWN BY THE FIRST APPROPRIATE SYMBOL, SUCH AS: Boro Conn & E D Bdy

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

BOUNDARY MERINGS
B.C. Centre of Bank
C.B. Centre of Bank
C.D. Centre of Drain, etc.
F.F. Face of Fence
F.W. Face of Wall
R.H. Root of Hedge
R.V. Root of River, etc.
D. Drizoid
E. Undrained

AREAS notes
Imperial equivalents for metric boundary measurements
0.91m = 3ft
1.22m = 4ft

SYMBOLS
Slopes
Cliff
Cave entrance
Rock
Sloping mass
Roofed building
Glasshouse

Survey of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.
Bench marks are given in METRES above the Newlyn Datum.
The representation of this plan of road, railway and other features is the extent of a right of way.
The alignment of bench marks is approximate.
