THE NATIONAL GRID

TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE		Calne Barn	
The Grid Letters on this sheet are SU			
EAST		NORTH	
Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margins.	02	Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margins.	02
Estimate tenths Eastwards	021	Estimate tenths Northwards	021
Full 100 Metre Reference SU 02167			
The above Full Reference is unique.		For many purposes the first grid letter can be dropped (e.g. SU 02167 becomes 02167 or 02167).	

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference (U 02167) which covers an interval of 500 Kilometres. If both grid letters are omitted, the resulting reference 021677 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 03' West of Grid North, and at the Western edge True North is the same as Grid North.

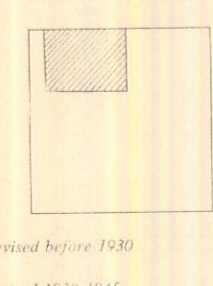

Magnetic North was about 9° West of Grid North in 1961, decreasing by about 1" in four years.

Heights are in feet above Mean Sea Level at Newlyn.

1 square inch on this map represents 17.78 acres on the ground.

Boundaries which have been verified on the ground are shown in black. Boundaries which have not been verified on the ground are shown in brown.

REVISION DIAGRAM

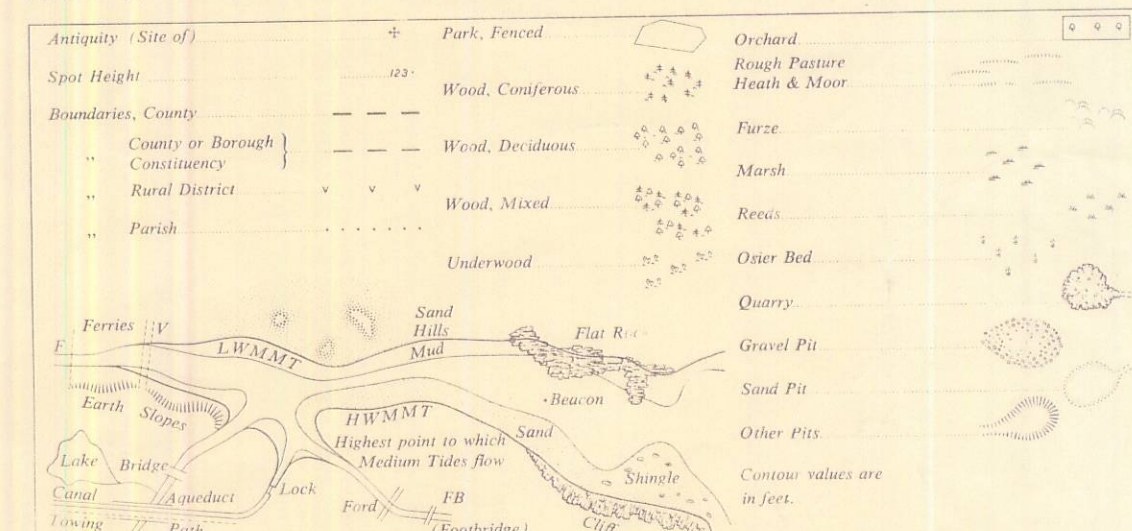

Revised before 1930

Revised 1930-1945

The whole sheet was revised for minor changes only in 1956.

Boundaries revised to 1-7-65.

Made and published by the Director General of the ORDNANCE SURVEY, CHESHINGTON, SURREY, 1961.
