ST 95 SE	SU 05 SW	SU 05 SE

The representation on this Map of a Road, Track, or Footpath, is no evidence of the existence of a right of way.

THE NATIONAL GRID

TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE — Sands Farm

The Grid Letters on this sheet are SU

EAST: Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margins. Estimate tenths Eastwards — 01 5 — 015

NORTH: Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margins. Estimate tenths Northwards — 56 0 — 560

Full 100 Metre Reference SU 015560

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, U 015560 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference 015560 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 03' West of Grid North and at the Western edge is the same as Grid North

Magnetic North was about 9° West of Grid North in 1961 decreasing by about ⅓° in four years.

Heights are in feet above Mean Sea Level at Newlyn.

1 square inch on this map represents 17.778 acres on the ground

REVISION DIAGRAM

Revised before 1930

Revised 1930-1945

The whole sheet was revised for major changes only in 1956.

Boundaries revised to 1-7-60.

Made and published by the Director General of the ORDNANCE SURVEY, CHESSINGTON, SURREY, 1961.

Antiquity (Site of) — Spot Height — Boundaries, County — " County or Borough Constituency — " Rural District — " Parish — Park, Fenced — Wood, Coniferous — Wood, Deciduous — Wood, Mixed — Underwood — Orchard — Rough Pasture — Heath & Moor — Furze — Marsh — Reeds — Osier Bed — Quarry — Gravel Pit — Sand Pit — Other Pits — Contour values are in feet

Ferries — Sand Hills — Mud — Flat Rock — LWMMT — Earth Stripes — HWMMT Highest point to which Medium Tides flow — Beacon — Sand — Lake — Bridge — Canal — Aqueduct — Lock — Ford — FB (Footbridge) — Shingle — Towing Path — Dam — Cliff
