

Made and published by the Director General of the Ordnance Survey, Southampton.

Scale 1:2500

Levelled.....1957
Boundaries.....May 1975

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of towns where shown is approximate.

BOUNDARIES

ENGLAND & WALES
County.....
District.....
London Borough.....
Civil Parish (England).....
Community (Wales).....
Electoral Division.....
Ward.....
Constituency (Co or Bor).....

SCOTLAND
Region or Islands Area.....
District.....
Electoral Division.....

Coincident boundaries are shown by the first appropriate symbol above, e.g., Bore Compt & ED Bdy

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area exists.

AREAS

Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 1-809ha area in hectares
4-47 area in acres
When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area.....
Limits of area within which individual parcels are not shown.....
To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0539

1. Take the two letters preceding the sheet number.....TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....058

3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291

4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 058291

The resulting four figure number is the Northing.....2916

The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 058291
