

PLAN SU 1662-17

ORDNANCE SURVEY

HEIGHTS IN METRES

PEWSEY ED

NATIONAL GRID PLANS Scale 1:2500

WILTSHIRE COUNTY

SU 1663-1763

KENNET DISTRICT

WILCOT C P

PEWSEY C P

SU 1661-1761

CONVERSION SCALES

HECTARES/ACRES

No 20 WARD

DEVIZES CO CONST

Made and published by the Director General of the Ordnance Survey, Southampton

Area measurement to plan edge only

The number and area in hectares (ha) and acres is shown within each parcel of land

EXAMPLE

When identifying a parcel it is important to specify the number of the plan on which it falls

Enclosures or features noted for measurement of area

Limit of area within which individual parcels are not shown

To convert hectares to acres multiply by 2.471 05

To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference

defining the position of a point in within 10 metres proceed as follows

EXAMPLE from sheet TQ 5829

1. Take the two letters preceding the sheet number

2. Take the west edge of the grid square in which the point lies and

read the figure opposite this line on the north or south margin

Estimate tens of metres from the grid line to the point (distance x)

The resulting four figure number is the Easting

3. Take the south edge of the grid square in which the point lies and

read the figure opposite this line on the east or west margin

Estimate tens of metres from the grid line to the point (distance y)

The resulting four figure number is the Northing

4. The full ten metre reference is given by joining the letters

followed by the Easting and then by the Northing

For further information see An Introduction to the Ordnance Survey Maps and the National Reference System

COMPILED DATA

Levelled 1957

Boundaries Nov 1975

(a) Surveyed

(b) Reconstructed from former County Survey plans and revised

(c) Revised

1:2500 scale

* 1:1250 scale (photographically reduced)

Surveys of changes since the publication of this plan may be available. Enquiries should be

addressed to the Director General or to the local Ordnance Survey office

HEIGHTS are given in METRES above the Newlyn Datum

Bench mark data, which may contain later levelling information and particulars of bench marks

to which values have been shown, are obtainable from the Director General, Ordnance Survey

The representation on this plan of a road, track or path is no evidence of the existence of a right of way

The alignment of a tunnel where shown is approximate
