Estimate tenth Northwards
NORTH
Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margin.
Estimate tenth Northwards
Full 100 Metre Reference: SU 172625
The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference of 172625 which occurs at intervals of 100 Kilometres. If both grid letters are omitted, the resulting reference 172625 occurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.
At the Eastern edge of this sheet North is 9° 17' West of Grid North and at the Western edge 9° 18' West of Grid North.
Magnetic North was about 9° West of Grid North in 1961, decreasing by about 1' in four years.
Heights are in feet above Mean Sea Level at Newlyn.
1 square inch on this map represents 27.78 acres on the ground.
