Map and published by the Director General of the Ordnance Survey, Southampton.

Scale 1:2500

Levelled 1957

Boundaries Sep 1975

1:2500 scale

1:1250 scale (photographically reduced)

(a) Surveyed.

(b) Reconstructed from former County Series plans and revised.

(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Mean Sea Level.

Bench mark lines, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation of a road or railway line is evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

AREAS

Area measurements in this plan are in hectares.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 1:2500 scale

4.267 ha

10.500 acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features joined for measurement of area.

Limit of area within which individual parcels are not shown.

To convert hectares to acres multiply by 2.471 05.

To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the Ordnance Survey map and are at 100 metres intervals. To give a unique reference to a point on the map, a four-figure grid reference is used.

EXAMPLE: From sheet TQ 0529

1. Take the two letters preceding the sheet number. TQ

2. Take the two digits of the grid square in which the point lies and read the figures opposite this line on the north or south margin. 058

3. Take the two digits of the grid square in which the point lies and read the figures opposite this line on the east or west margin. 291

4. The full four-figure grid reference is the four figures read in the last two steps. TQ 058291

5. The full six-figure grid reference is given by writing the last two figures of the four-figure reference followed by the Easting and then the Northing. TQ 058291.6
