

COMPILED DATA

Levelled: 1957
Boundaries: Oct 1976

1:2500 scale
(a) Surveyed
(b) Reconstructed from former County Survey plans and revised
(c) Revised

Survey of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General of the Ordnance Survey, Southampton.

Boundaries shown in this plan are the boundaries of the Ordnance Survey, Southampton.

The alignment of roads shown is approximate.

ABBREVIATIONS

B.H. Bench Mark	L.S. Levelled Station	B.H. Bench Mark
B.P. Boundary Pillar	L.C. Level Crossing	B.P. Boundary Pillar
B.S. Boundary Stone	L.G. Landmark	B.S. Boundary Stone
C. Church	L.H. Light House	C. Church
C.H. Church House	L.T. Light Tower	C.H. Church House
Cy. Cemetery	M.H.W. Mean High Water	Cy. Cemetery
D.O. Drinking Fountain	M.H.W.S. Mean High Water Springs	D.O. Drinking Fountain
D.P. Driveway Pillar or Pole	M.L.W. Mean Low Water	D.P. Driveway Pillar or Pole
E.T. Electricity Transmission Line	M.P. Mile Post	E.T. Electricity Transmission Line
F.A. Fire Alarm	M.P. Mile Post	F.A. Fire Alarm
F.P. Fire Pump	M.P. Mile Post	F.P. Fire Pump
F.S. Fire Station	M.P. Mile Post	F.S. Fire Station
G.P. Gully Post	M.P. Mile Post	G.P. Gully Post
H. House	M.P. Mile Post	H. House
H.S. Hydrant or Hydraulic	M.P. Mile Post	H.S. Hydrant or Hydraulic
L. Lake	M.P. Mile Post	L. Lake
L.S. Levelled Station	M.P. Mile Post	L.S. Levelled Station

SYMBOLS

Non-coniferous trees	Cliff	Site of antiquity
Coniferous trees	Cave entrance	Direction of water flow
Orchard trees	Rock	Pyrex
Grassland	Shed	Electricity Transmission Line
Scrub	Stable	Telephone station
Grassland	Stable	Telephone station
Grassland	Stable	Telephone station

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metres intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

- Take the two letters preceding the sheet number: TQ
- Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 058
- Take the east edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 291
- Take the south edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 659
- Take the north edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 291

The resulting four figure number is the National Grid Reference. To convert to the Ordnance Survey reference, add 100 to the first two figures and 100 to the last two figures.

Metres: 0 100 200 300 400 500 600 700 800 900 1000 1100 1200 1300 1400 1500 1600 1700 1800 1900 2000 2100 2200 2300 2400 2500 2600 2700 2800 2900 3000 3100 3200 3300 3400 3500 3600 3700 3800 3900 4000 4100 4200 4300 4400 4500 4600 4700 4800 4900 5000 5100 5200 5300 5400 5500 5600 5700 5800 5900 6000 6100 6200 6300 6400 6500 6600 6700 6800 6900 7000 7100 7200 7300 7400 7500 7600 7700 7800 7900 8000 8100 8200 8300 8400 8500 8600 8700 8800 8900 9000 9100 9200 9300 9400 9500 9600 9700 9800 9900 10000

EXAMPLE

1. Take the two letters preceding the sheet number: TQ

2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 058

3. Take the east edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 291

4. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 659

5. Take the north edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin: 291

The resulting four figure number is the National Grid Reference. To convert to the Ordnance Survey reference, add 100 to the first two figures and 100 to the last two figures.
