

1:2500 scale * 1:1250 scale (photographically reduced)

(b) Aug 1978

Levelled.....1967

Boundaries....Feb 1979

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

(a) Surveyed.

(b) Reconstructed from former County Series plans and revised.

(c) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation of a road, track or path is no evidence of the existence of a right of way.

The alignment of a canal where shown is approximate.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:-

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number.....TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite the line on the north or south margin.....058

3. Take the east edge of the grid square in which the point lies and read the figures opposite the line on the east or west margin.....291

4. The resulting four figure number is the Easting.....058291

5. The resulting four figure number is the Northing.....2916

6. The full six figure reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 0582916

7. For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.
