REFERENCE

For fuller information see Reference Card published separately.

NATIONAL GRID REFERENCE

The lines on the plan form part of the National Grid and are spaced at 100 metre intervals. To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows:-

EASTING		NORTHING	
Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins	013	Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins	205
Estimate tens of metres from the grid line	4	Estimate tens of metres from the grid line	7
	0134		2057
TEN METRE REFERENCE: SU 01342057			

For further information see "The Projection for Ordnance Survey Maps and Plans and the National Reference System"

The representation on this plan of a road, track or footpath is no evidence of the existence of a right of way.

- Antiquities (Site of)
- Change of boundary mering
- Perimeter of built up area
