

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelled.....1952
Boundaries.....Feb 1977

(a) Dec 1976

f 1:2500 scale * 1:1250 scale (photographically reduced)
(g) Surveyed
(h) Reconstituted from former County Series plans and revised.
(i) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain level information and particulars of bench marks (a) which no values have been shown, are obtainable from the Director General, Ordnance Survey.
(b) representation on this plan of road, track or path is no evidence of the existence of a right of way.
(c) The alignment of tunnels where shown is approximate.

| [Symbol] | County Boundary | [Symbol] | Region or Islands Area |
| [Symbol] | London Borough | [Symbol] | Civil Parish (England) |
| [Symbol] | Community (Wales) | [Symbol] | Electoral Division |
| [Symbol] | Electoral Division | [Symbol] | Ward |
| [Symbol] | County (Co or Boro) | [Symbol] | Constituency (Co or Boro) |
| [Symbol] | Boro Const Bdy | [Symbol] | Constituency (Co or Boro) |
| [Symbol] | Co Const Bdy | [Symbol] | Constituency (Co or Boro) |

Area measurement to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
18079ha area in hectares
44.7 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area.
Limits of area within which individual parcels are not shown.
To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:
EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number TQ 0529
- Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin 058
- Estimate east of metres from the grid line to the point (distance) 8
- The resulting four figure number is the Easting 0588
- Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin 291
- Estimate south of metres from the grid line to the point (distance) 6
- The resulting four figure number is the Northing 2916
- The full ten digit reference is given by writing first the Easting followed by the Northing and then by the sheet number TQ 0529216
- The full ten digit reference is given by writing first the Easting followed by the Northing and then by the sheet number TQ 0529216
