VEGETATION CLASSIFICATION (Whittaker's system): 1=deciduous, 2=coniferous, 3=scrub, 4=open or scattered density of trees or scrub.

AREAS

Area measurements in hectares and acres are shown within each parcel of land. The number and area in hectares (ha) and acres (a) are given for each parcel of land.

EXAMPLE: 4267 parcel number, 1.809ha area in hectares, 4.47 area in acres.

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area. Limits of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.471 05. To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0559

1. Take the two letters preceding the sheet number: TQ 058 292

2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. Estimate tens of metres from the grid line to the point (distance in metres): 08 2916

3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. Estimate tens of metres from the grid line to the point (distance in metres): 29 2916

4. The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing: TQ 058 2916

COMPILED DATA

Levelled: 1958
Boundaries: Oct 1974

1:2500 scale
1:1250 scale (photographically reduced)

(a) Surveyed
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain level levelling information and particulars of bench marks which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is evidence of the existence of a right of way. The alignment of a tunnel where shown is approximate.
