One grid square on this plan represents one hectare

Drawn by Salisbury District Council from Unpublished Information Supplied by Ordnance Survey

AREAS
Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
1897ha area in hectares
4.47 area in acres
To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area
Limit of area within which individual parcels are not shown
To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:
EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number TQ 0529
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. Estimate tenths of metres from the grid line to the point (distance x) 08
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. Estimate tenths of metres from the grid line to the point (distance y) 29
- The resulting four figure number is the Northing 29108

The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing TQ 0529108

COMPILED DATA
1:2500 scale * 1:1250 scale (photographically reduced)
(a) Surveyed
(b) Reconstructed from former County Series plans and revised.
(c) Revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.
HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks (to which no values have been shown), are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.
