SYMBOLS

[Symbol]	Non-coniferous trees	[Symbol]	Site of antiquity
[Symbol]	Coniferous trees	[Symbol]	Culvert
[Symbol]	Sarvated trees	[Symbol]	Direction of water flow
[Symbol]	Orchard trees	[Symbol]	Pylon
[Symbol]	Copse or scrub	[Symbol]	E.T.L. Electricity Transmission Line
[Symbol]	Struck	[Symbol]	Triangulation station
[Symbol]	Heath	[Symbol]	Traverse station (permanent)
[Symbol]	Bracken & rough grassland	[Symbol]	Bench mark
[Symbol]	Marsh	[Symbol]	Surface level
[Symbol]	Saltings	[Symbol]	Change of boundary meaning
[Symbol]	Reeds	[Symbol]	Revision point & bench mark coincident

BOUNDARIES

England & Wales: County, District, London Borough, Civil Parish (England), Community (Wales), Electoral Division, Ward, Consistency (Co or Baro).

Scotland: Region or Island Area, District, Ward, Consistency (Co or Burgh).

Concurrent boundaries are shown by the lines appropriate symbol above, e.g. Baro Const & E.D. By.

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area exists.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TG 0529

1. Take the two letters preceding the sheet number: TG

2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. Estimate tenths of metres from the grid line to the point (distance 4).

3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. Estimate tenths of metres from the grid line to the point (distance 2).

4. The resulting four figure number is the Northing.

5. The full six figure reference is given by writing down the letters followed by the Easting and then by the Northing.

For further information see: An introduction to the Projection for Ordnance Survey Maps and the National Reference System.
