

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

COMPILED DATA

Levelled 1958
Boundaries Dec 1974

(b) May 1974

1:2500 scale * 1:1250 scale (photographically reduced)

(a) Surveyed
(b) Reconstructed from former County Series plans and revised
(c) Revised

Survey of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General. Ordnance Survey. Estimate (cost of issue) from the grid line to the point (distance in metres).

The alignment of canals, where shown is approximate.

SYMBOLS

Non coniferous trees	Site of antiquity
Coniferous trees	Culvert
Orchard trees	Direction of water flow
Coppcie, over	Rock
Scrub	Electricity pylon
Bracken	Electricity Transmission Line
Hedge	Triangulation station
Rough grassland	Traverse station (permanent)
Change of boundary marking	Bench mark
See AREAS notes	Surface level
Revision point & bench mark coincident	Revision points

BOUNDARIES

Country	County
District	District
London Borough	London Borough
Civil Parish	Civil Parish
Community (Wales)	Community (Wales)
Electoral Division	Electoral Division
Ward	Ward
Borough Council & Ward Bdy	Borough Council & Ward Bdy
Co. Const. Bdy	Co. Const. Bdy
Parish Consistency	Parish Consistency & Ward

Where boundaries coincide the symbol shown is the first applicable in the table above, e.g. Borough Council & Ward Bdy.

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area exists.

New boundary symbols adopted for England and Wales 1974

BB	Base of Bank	C.R.	Centre of Road	F.F.	Face of Fence	T.B.	Top of Bank
C.B.	Centre of Bank	C.S.	Centre of Stream	F.W.	Face of Wall	T.H.	Track of Hedge
C.C.S.	Centre of Covered Stream	Daf.	Defiling	H.H.	Roof of Hedge	T.S.	Track of Stream
C.D.	Centre of Drain	E.K.	Edge of Keel	S.R.	Side of River, etc.	Und.	Undefined

Imperial equivalents for metric boundary markings: 1:2500 = 1:2500

VEGETATION CLASSIFICATION Where (P) permits tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

AREAS

Area measurement is to plan edge only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
1.807ha area in hectares
4.41 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or figures joined for measurement of area are shown as follows: ————

Limit of area within which individual parcels are not shown: ————

To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a metric reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529 058

- Take the two letters preceding the sheet number: TQ
- Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. Estimate tenths of metres from the grid line to the point (distance in metres): 058
- Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. Estimate tenths of metres from the grid line to the point (distance in metres): 291
- The full ten metric reference is given by writing first the letters followed by the Easting and then by the Northing: TQ 058816 291

The full ten metric reference is given by writing first the letters followed by the Easting and then by the Northing: TQ 058816 291

For further information see An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.
