SYMBOLS

Non-coniferous trees	Slopes	Site of antiquity
Coniferous trees	Cliff	Cultures
Surveilled trees	Cave entrance	Direction of water flow
Orchard trees	Rock	Electricity pylon
Coppice, alder	Boulders	Electricity Transmission Line
Scrub	Sloping masonry	Triangulation station
Bracken	Roofted building	Traverse station (permanent)
Heath	Glashouse	Bench mark
Rough grassland	Archway	Surface level
Marsh, saltings	Change of boundary merging	Revision point
Reeds	see AREAS notes	Revision point & bench mark coincident

BOUNDARIES

England & Wales	Scotland
Geographical County	Geographical County
Admin. County	County Council
County Borough	County of the City
London Borough	Borough
County Districts	Dist. Bd.
Civil Parish	Co. Const. & Dist. Bd.
Rural Borough	Co. Const. & Dist. Bd.
Borough Const. & Ward Bd.	Co. Const. & Dist. Bd.
Co. Const. Bd.	Co. Const. & Dist. Bd.

Where the boundary of an Admin. Co., County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g.

AREAS

Area measurements in this plan are in hectares (ha) and acres, as shown within each parcel of land.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 1-809ha parcel number
 4.47 hectares area in acres
 To convert hectares to acres multiply by 2.471 05
 To convert acres to hectares multiply by 0.404 69

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area are not shown.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number. TQ
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. 058
- Take the east edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. 291
- Estimate tens of metres from the grid line to the point (distance). 291.6
- Estimate tens of metres from the grid line to the point (distance). 058.6
- The resulting four figure number is the Northing. 2916
- The resulting four figure number is the Easting. 0586
- The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing. TQ 05862916
