SYMBOLS

Non-ferrous trees	Slopes	Site of antiquity
Coniferous trees	CH	Calvert
Surveyed trees	Cave entrance	Direction of water flow
Orchard trees	Rock	Electricity pylon
Coppice, osier	Boilers	Electricity Transmission Line
Scrub	Sloping masonry	Triangulation station
Roofed building	Roofed building	Traverse station (permanent)
Glasshouse	Glasshouse	Bench mark
Archway	Archway	Surface level
Well	Well	Revision point
Weightbridge	Weightbridge	Revision point & bench mark coincident
Wind Pump	Wind Pump	
Works	Works	
Water Point	Water Point	
Letter Tap	Letter Tap	

VEGETATION CLASSIFICATION (Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two, or singly to indicate close, medium, open or scattered density of trees or scrub.)

BOUNDARIES

England & Wales	Scotland	Geographical Country
Civil Parish	Civil Parish	County of the City
London Borough	District	District Council
Civil Parish	Community (Wales)	District Council
Electoral Division	Ward	District Council
Baro Const. Bdy	Co Const. Bdy	District Council
Co Const. Bdy	Co Const. Bdy	District Council

NATIONAL GRID REFERENCE
 The grid lines form part of the National Grid and are at 100 metres intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:
 EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number. TQ
 2. Take the easting of the grid square in which the point lies and read the figure opposite this line on the north or south margin. 058
 3. Take the northing of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291
 4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing. TQ 058291

For further information see "An Introduction to the Projection for Ordnance Survey Maps and the National Reference System".
