CONVERSION SCALE: Metres-Feet

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelled by 1958
 Boundaries Oct 1973

Levelled in METRES above the Newlyn Datum, which may contain later levelling information and bench marks to which the values have been shown from the Director General, Ordnance Survey.

Information on this plan of a road, track or path indicates the existence of a right of way.

Location of tunnels where shown is approximate.

SU 1230 SW

SYMBOLS

- Site of antiquity
- Change of boundary mering
- Culvert
- Direction of water flow
- Electricity pylon
- Electricity Transmission Line
- Triangulation station
- Chimney
- Capstan
- Drinking Fountain
- Electricity Pillar or Pole
- Electricity Transmission Line
- Fire Alarm
- Fire Alarm Pillar
- Filter Bed or Foot Bridge
- Fundamental Bench Mark
- Flagstaff

| F S | Flagstaff | M P | Mile or Mooring Post | S | Stone | Wr T | Water Tap |

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

One grid square on this plan represents one hectare on the ground. To convert hectares to acres multiply by 2.471 05

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:-

- Take the two letters preceding the sheet number..... TQ
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058
- Estimate tens of metres from the grid line to the point (distance e)..... 8
- Estimate units of metres from the grid line to the point (distance n)..... 291

The resulting four figure number is the Northing..... 2916

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number..... TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058

3. Estimate tens of metres from the grid line to the point (distance e)..... 8

4. Estimate units of metres from the grid line to the point (distance n)..... 291

The resulting four figure number is the Northing..... 2916

The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing..... TQ 05882916

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'

BOUNDARY MERINGS

- | | | | | | |
|-------|--------------------------|----------|------------------------|------|--------------|
| B B | Base of Bank | C S | Centre of Stream, etc. | S R | Side of Road |
| C B | Centre of Bank | Def | Defaced | T B | Top of Bank |
| C C S | Centre of Covered Stream | E K | Edge of Kerb | Tk H | Track Head |
| C D | Centre of Drain, etc. | F F, F W | Face of Fence, Wall | Tk S | Track Side |
| C R | Centre of Road, etc. | R H | Root of Hedge | Und | Underpass |

Imperial equivalents for metric boundary merings 0.91m = 3ft 1.22m = 4ft
