

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA

Levelled	1957.58
Boundaries	Feb 1975

1:2500 scale \* 1:250 scale (photographically reduced)  
(a) Surveyed.  
(b) Reconstituted from former County Series plans and revised.  
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
Bench mark lists, which may contain level levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

LB	Letter Box	W.P.	Water Point
		W.T.	Water Tap

VEGETATION CLASSIFICATION: Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate class, medium, open or scattered density of trees or scrub.

BOUNDARIES

England & Wales	County Boundary	Scotland	Geographical County Boundary
	District Boundary		County of the City
	London Borough		County of the City
	Civil Parish		Borough Bdy
	Community (Wales)		Dist Bdy
	Electoral Division		District Boundary
	Ward Bdy		Civil Parish
	Borough Council Bdy		Borough Council Bdy
	County Council Bdy		County Council Bdy

Where boundaries coincide the symbol shown is the first applicable in the table above, e.g., Borough Council & ED Bdy.

VEGETATION CLASSIFICATION: Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate class, medium, open or scattered density of trees or scrub.

AREA

Area measurement is to plain edges only.  
Enclosures or areas, in hectares (ha) and acres, is shown within each parcel of land.  
The number and area, in hectares (ha) and acres, is shown within each parcel of land.  
EXAMPLE: 4.267 ..... parcel number  
1.827ha ..... area in hectares  
4.47 ..... area in acres

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

- Take the two letters preceding the sheet number..... TQ 058
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058
- Estimate tens of metres from the grid line on the point (distance x)..... 6
- Estimate units of metres from the grid line on the point (distance y)..... 291
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin..... 291
- Estimate tens of metres from the grid line on the point (distance x)..... 6
- Estimate units of metres from the grid line on the point (distance y)..... 291
- The resulting four figure number is the Northing..... TQ 058291
- The resulting four figure number is the Easting..... TQ 058291

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
