CONVERSION SCALES

HECTARES ACRES

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

(b) May 1973

Levelled.....1957,58

Boundaries.....Sep 1973

† 1:2500 scale * 1:1250 scale (photographically reduced)

(a) Surveyed.

(b) Reconstituted from former County Series plans and revised.

(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

METRES-FEET

1 metre = 3·2808 feet

1 foot = 0·3048 metre

One grid square on this plan represents one hectare.

SYMBOLS

Non-coniferous trees
Coniferous trees
Surveyed trees
Orchard trees
Coppice, osier
Scrub
Bracken
Heath
Rough grassland
Marsh, saltings
Reeds

Slopes
Cliff
Cave entrance
Rock
Boulders
Sloping masonry
Roofed building
Glasshouse
Archway
Change of boundary mereing
see AREAS notes

Site of antiquity
Culvert
Direction of water flow
Electricity pylon
E T L Electricity Transmission Line
Triangulation station
ts Traverse station (permanent)
Bench mark
Surface level
rp Revision point
Revision point & bench mark coincident

VEGETATION CLASSIFICATION. Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

BOUNDARIES

England & Wales		Scotland
	Geographical County	Geographical County
	Admin County / County Borough	County Council / County of the City
	London Borough	Burgh
M B Boy, U D Boy, R D Boy.	County Districts	Dist Bdy. — District Council
	Civil Parish	Civil Parish
R B Boy.	Rural Borough	Burgh Const & Ward Bdy. — Parly Constituency & Ward
Boro Const & Ward Bdy. — Co Const Bdy.	Parly Constituency & Ward	

Where the boundary of an Admin Co, County Borough or Co of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. ——— or ——— but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g. Burgh Const & Burgh Bdy. Co Const & Dist Bdy.

Boundary mereings

B B	Base of Bank	C R	Centre of Road, etc.	F F	Face of Fence
C B	Centre of Bank	C S	Centre of Stream, etc.	F W	Face of Wall
C C S	Centre of Covered Stream	Def	Defaced	R H	Root of Hedge
C D	Centre of Drain, etc.	E K	Edge of Kerb	S R	Side of River, etc.

T B	Top of Bank	T H	Track of Hedge
Tk S	Track of Stream	Und	Undefined

Imperial equivalents for metric boundary mereings
0·91m = 3ft 1·22m = 4ft

Made and published by the Director General of the Ordnance Survey, Southampton

AREAS

Area measurement is to plan edge only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

4267.....parcel number

EXAMPLE: 1·809ha.....area in hectares
4·47.....area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features joined for measurement of area.....

Limit of area within which individual parcels are not shown.....

To convert hectares to acres multiply by 2·471 05

To convert acres to hectares multiply by 0·404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number.....TQ
2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....058
   Estimate tens of metres from the grid line to the point (distance e).....8
   The resulting four figure number is the Easting.....0588
3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291
   Estimate tens of metres from the grid line to the point (distance n).....6
   The resulting four figure number is the Northing.....2916
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 0588 2916
