ORDNANCE SURVEY

HEIGHTS IN METRES

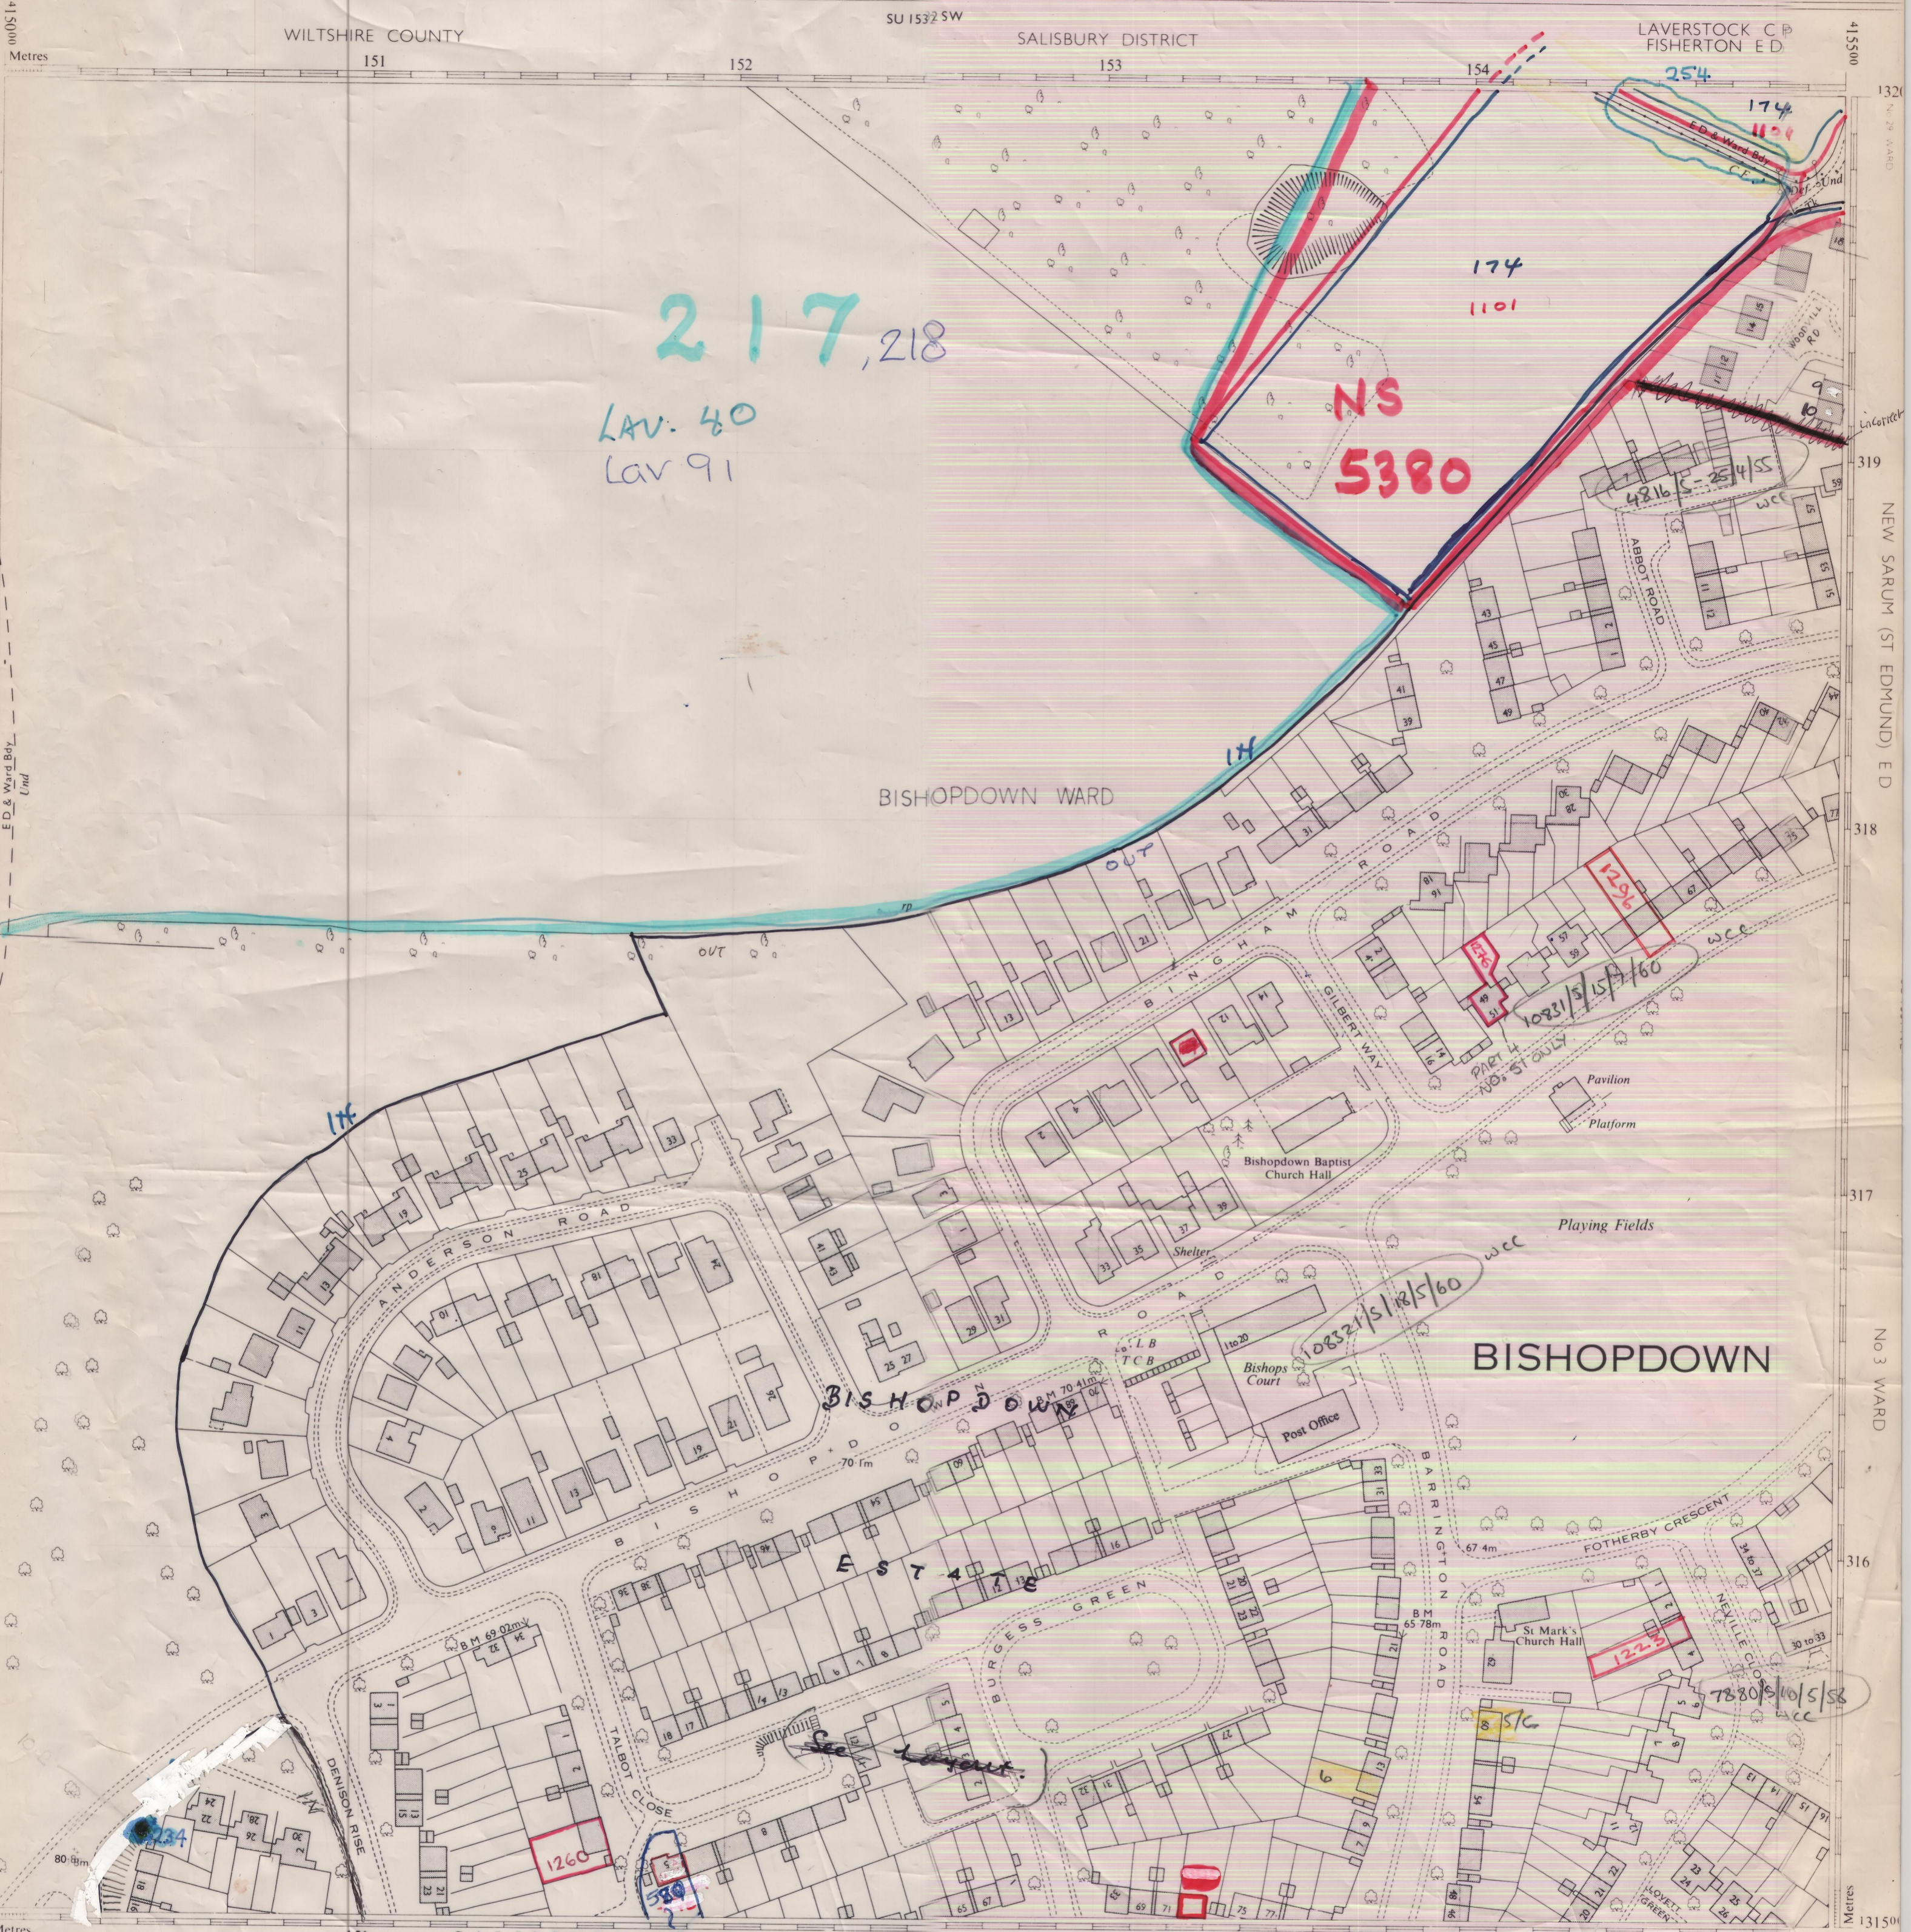

PLAN SU 1531 N

WILTSHIRE COUNTY

SU 1532 SW

SALISBURY DISTRICT

LAVERSTOCK C.P. FISHERTON E.D.

**COMPILATION DATA**

Levelled 1958  
 Boundaries Jul 1975 (Related to features at survey date)

(a) Jul 1963

**BOUNDARIES**

ENGLAND & WALES  
 County  
 District  
 London Borough  
 Civil Parish (England)  
 Community (Wales)  
 Electoral Division  
 Ward  
 Constituency (Co or Boro)

SCOTLAND  
 Region or Islands Area  
 District  
 Not shown  
 Electoral Division  
 Ward  
 Constituency (Co or Burgh)

CONCIDENT BOUNDARIES are shown by the first appropriate symbol above, e.g. Boro Const & ED Bdy.

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

**BOUNDARY MARKS**

|     |                          |     |                       |    |                    |     |                 |
|-----|--------------------------|-----|-----------------------|----|--------------------|-----|-----------------|
| BB  | Base of Bank             | CR  | Centre of Road etc.   | FF | Face of Fence      | TB  | Top of Bank     |
| CB  | Centre of Bank           | CS  | Centre of Stream etc. | FW | Face of Wall       | TH  | Track of Hedge  |
| CCS | Centre of Covered Stream | Def | Defaced               | RH | Root of Hedge      | TS  | Track of Stream |
| CD  | Centre of Drain etc.     | EK  | Edge of Kerb          | SF | Side of River etc. | Und | Undefined       |

Imperial equivalents for metric boundary markings  
 0.91m = 3ft. 1.22m = 4ft.

**NATIONAL GRID REFERENCE**

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference, defining the position of a point to within 10 metres proceed as follows:

- Take the two letters preceding the "sheet number".
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. Estimate tens of metres from the grid line to the point (distance e). The resulting four-figure number is the Easting.
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. Estimate tens of metres from the grid line to the point (distance n). The resulting four-figure number is the Northing.
- The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing.

For further information see: An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.

EXAMPLE from sheet TQ 0529 SE

|      |     |
|------|-----|
| TQ   | 058 |
| 292  | 058 |
| 0588 | 058 |
| 291  | 058 |
| 0589 | 059 |

One grid square on this plan represents one hectare on the ground. To convert hectares to acres multiply by 2.47105.
