COMPILATION DATA

Levelled Boundaries ..... 1965 Jan 1972

1:2500 scale 1:1250 (Land Photography not reduced)

(a) Surveyed

(b) Reconstructed from former County Series plans and levelled

(c) Fully revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey agent.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench Mark Lists which may contain later levelling information are available for purchase. Bench Marks to which no values have been shown are obtainable from the Director General. Orders should state that the representation on this plan of a road, track or path is no evidence of a right of way.

The alignment of bounds is for representation only and is not to be taken as evidence of the exact line.

Hectares / Acres / Metres / Feet

One grid square on this plan represents one hectare

Made and published by the Director General of the Ordnance Survey, Southampton.

AREAS

Area measurement is to plan edge-only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 8400 parcel number; 10·79ha area in hectares; 4·47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features zoned for measurement of area ..... 8·9ha 22·0ac

Limit of area within which individual parcels are not shown .....

To convert hectares to acres multiply by 2·47105

To convert acres to hectares multiply by 0·4047

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE T in The Flamings

EASTING: Take west edge of 100 metres square in which point lies and read the figures opposite this line on the north or south margin. Estimate tens of metres from grid line to the point. 1732

NORTHING: Take south edge of 100 metres square in which point lies and read the figures opposite this line on the east or west margin. Estimate tens of metres from grid line to the point. 41B7

TEN METRE REFERENCE ..... SAF 173241B7
