(a) Surveyed  
(b) Reconstituted from former County Series plans and revised.  
(c) Revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
Bench mark lists, which may contain level levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

**VEGETATION CLASSIFICATION** Where the characteristics and uses of woods are shown in groups of four, three, two, or one, the symbols are as follows: *(symbols omitted)*

**AREAS**

Area measurement is to plan edge only.

The number and area in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE:

Parcel area in hectares: 0.267

Parcel area in acres: 0.661

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features parallel to measurement of area.

EXAMPLE:

Parcel area in hectares: 0.267

Parcel area in acres: 0.661

The remaining four figure number is the Easting.

To convert hectares to acres multiply by 2.47105.

To convert acres to hectares multiply by 0.40469.

**NATIONAL GRID REFERENCE**

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point on a plan proceed as follows:

EXAMPLE: From sheet TQ 958216

1. Take the two letters preceding the sheet number: TQ 058

2. Take the west edge of the grid square in which the point lies and read the figure opposite that line on the north or south margin: 058

3. Take the east edge of the grid square in which the point lies and read the figure opposite that line on the east or west margin: 291

4. The full six figure reference is given by joining the letters: TQ 958216

5. The remaining four figure number is the Easting: 2916

6. The remaining four figure number is the Northing: 058216
