Boundaries ..... Jan 1971

1:2500 scale \* 1:2500 scale (photographically reduced)

(a) Surveyed  
(b) Reconstructed from former County Series plans and revised  
(c) Fully revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
Bench Mark Lists which may contain later levelling information, also particulars of Bench Marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is to evidence the existence of a right of way.  
The alignment of tunnels where shown is approximate.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows:

EASTING

Take west edge of 100 metre square in which point lies and read the figures opposite the line on the north or west margin. Estimate tens of metres from grid line to the point.

NORTHING

Take south edge of 100 metre square in which point lies and read the figures opposite the line on the north or west margin. Estimate tens of metres from grid line to the point.

EXAMPLE B in Beaconhill Gorse

EASTING: 183.4  
NORTHING: 417.2

GRID REFERENCE: 1834 4172
