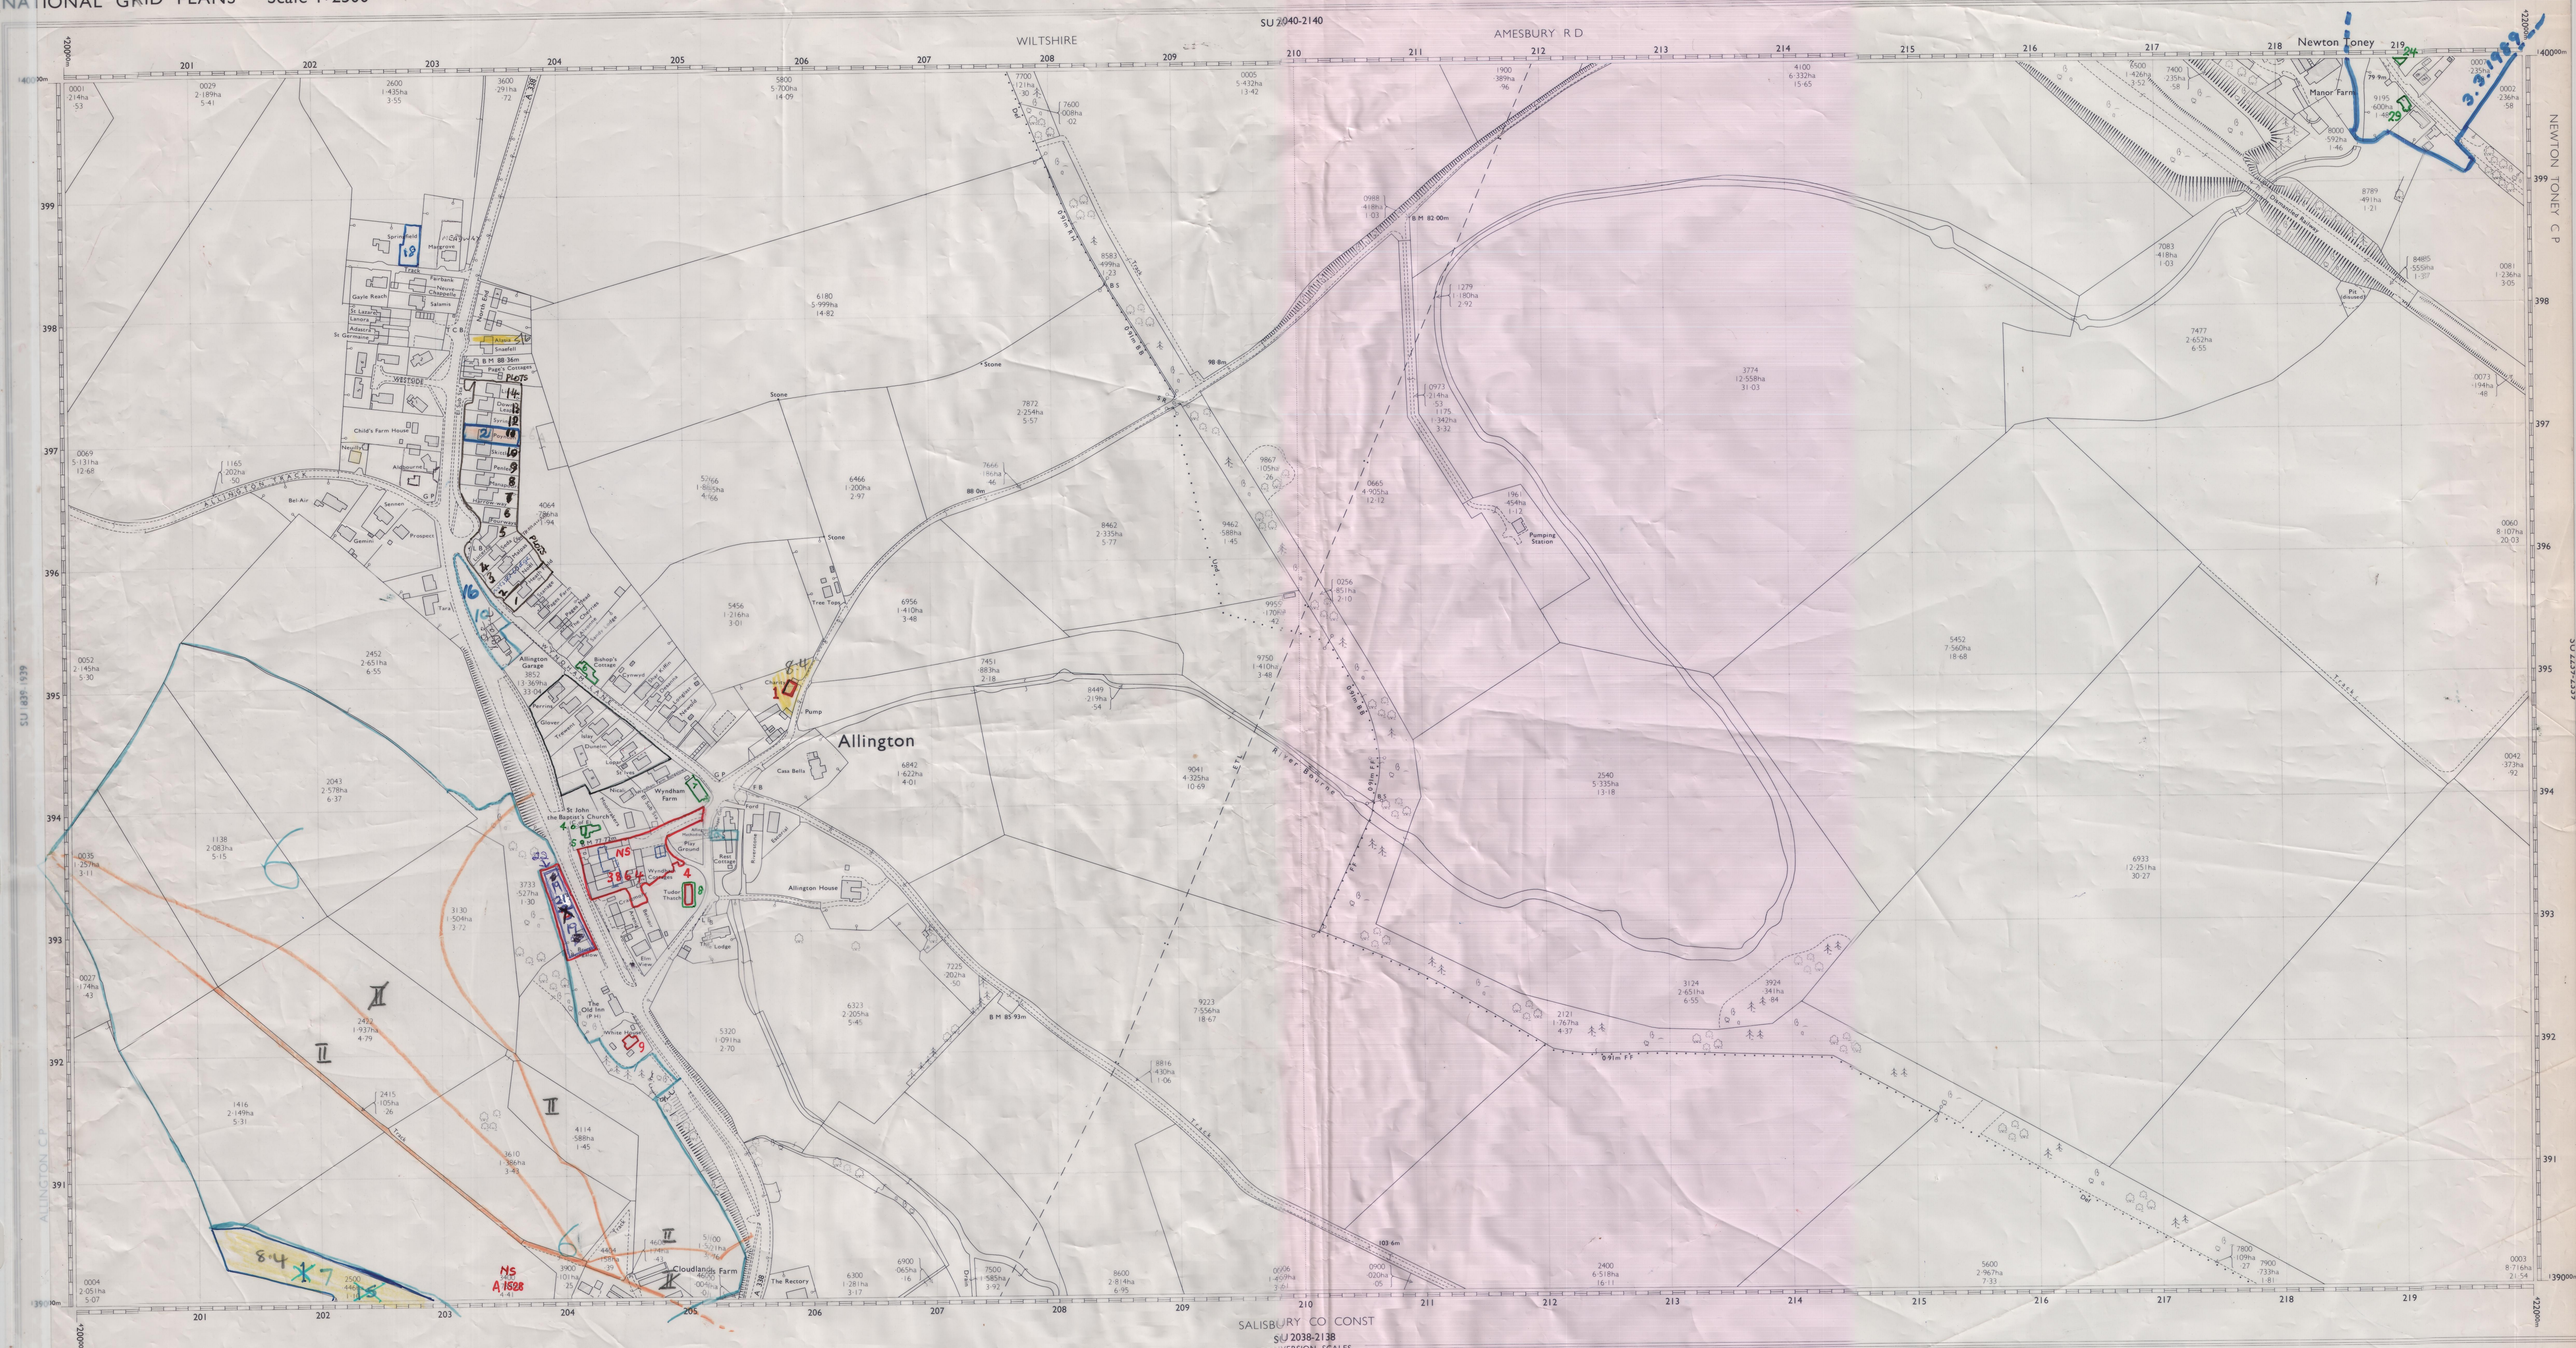
NATIONAL GRID PLANS Scale 1:2500

ORDNANCE SURVEY

HEIGHTS IN METRES

PLAN SU 2039-213



Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

(b) Apr 1973

Levelled 1958

Boundaries ..... Sep 1973

† 1:2500 scale * 1:1250 scale (photographically reduced)

(a) Surveyed.

(b) Reconstituted from former County Series plans and revised.

(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

SYMBOLS

Non-coniferous trees

Coniferous trees

Surveyed trees

Orchard trees

Coppice, osier

Scrub

Bracken

Heath

Rough grassland

Marsh, saltings

Reeds

VEGETATION CLASSIFICATION. Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

Slopes

Cliff

Cave entrance

Rock

Boulders

Coping, masonry

Roofed building

Glasshouse

Archway

Change of boundary mereing

Site of antiquity

Culvert

Direction of water flow

Electricity pylon

E T L Electricity Transmission Line

Triangulation station

Traverse station (permanent)

Bench mark

Surface level

Revision point & bench mark coincident

BOUNDARIES

England & Wales	Scotland
Geographical County	Geographical County
Admin. County, County Borough	County Council, County of the City
London Borough	Burgh
County Districts	District Council
Civil Parish	Civil Parish
Rural Borough	Parly Constituency & Ward
Parly Constituency & Ward	

Where the boundary of an Admin Co. County Borough or Co of City, County type boundary is usually coincident with civil parish boundary but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown. e.g.

RB Bdy — Boro Const & Ward Bdy — Co Const Bdy

coincident with that of a geographical county, the symbol for the latter is shown and the symbols for both are shown. e.g.

Burgh Const & Burgh Bdy — Co Const & Dist Bdy

Boundary mereings

B B	Base of Bank	C R	Centre of Road	F F	Face of Fence	T B	Top of Bank
C B	Centre of Bank	C S	Centre of Stream	F W	Face of Wall	Tk H	Track of Hedge
C C S	Centre of Covered Stream	Def	Defence	R H	Root of Hedge	Tk S	Track of Stream
C D	Centre of Drain, etc.	E R	Edge of Road	S R	Side of River, etc.	Und	Undefined

Imperial equivalents for metric boundary mereings

Made and published by the Director General of the Ordnance Survey, Southampton.

AREAS

Area measurement is to plan edge only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

4267 ..... parcel number

EXAMPLE: 11·929ha ..... area in hectares

4·47 ..... area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features joined for measurement of area .....

Limit of area within which individual parcels are not shown .....

To convert hectares to acres multiply by 2·471 05

To convert acres to hectares multiply by 0·404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

1. Take the two letters preceding the sheet number. EXAMPLE from sheet TQ 0529
2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. Estimate tens of metres from the grid line to the point (distance e). The resulting four figure number is the Easting.
3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. Estimate tens of metres from the grid line to the point (distance n). The resulting four figure number is the Northing.
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.

TQ 058 092 / 058 / 059 / 091 / 291 / 6 / 0588 / 2916

TQ 0588 2916
