**COMPILATION DATA**

Levelled ..... 1958  
 Boundaries ..... Dec 1972

(a) Surveyed  
 (b) Reconstructed from former County Series plans and revised  
 (c) Revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
 Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
 The representation on this plan of a road track or path is evidence of the existence of a right of way.  
 The alignment of tunnels where shown is approximate.

**NATIONAL GRID REFERENCE**

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE: From sheet TQ 0529

1. Take the two letters preceding the sheet number: TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin: 058

3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin: 291

4. The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing: TQ 058291

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'

**AREAS**

Area measurement is to plan edge only. Enclosures or features used for measurement of area are shown within each parcel of land.

EXAMPLE: 4.267 ..... parcel number  
 1.807ha ..... area in hectares  
 4.47 ..... area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features used for measurement of area are shown within each parcel of land. Limit of area within which individual parcels are not shown.

To convert hectares to acres multiply by 2.471 05  
 To convert acres to hectares multiply by 0.404 69
