

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON

COMPILED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON

Levelled 1958
Boundaries Feb 1973

(a) Surveyed
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation of a road, track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

SYMBOLS

Non-coniferous trees, Coniferous trees, Ditch, Road, Cave entrance, Copse, Coppice, Scrub, Bracken, Heath, Marsh, Reeds, Slopes, Cliff, Cave entrance, Road, Signal, Signal Light, Signal Post, Signal Station, Telephone Call Box, Telephone Call Post, Track or Track, Well, Water Pump, Works, Water Point, Water Tap, Site of antiquity, Culture, Direction of water flow, Economy option, Electricity Transmission Line, Triangulation station, Traverse station (permanent), Bench mark, Surface level, Revision point, Revision point & bench mark coincident

BOUNDARIES

England & Wales: Geographical County, County Borough, London Borough, County District, Civil Parish, Rural Borough, Borough, Borough & Ward, Co. Const. & Dist. Bdy.

Scotland: Geographical County, County of the City, Burgh, District Council, Civil Parish, Parish, Parish & Ward, Co. Const. & Dist. Bdy.

Where the boundary of an Admin. Co., County Borough or Co. of a City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g.

Boundary markings: Face of Fence, Face of Wall, Top of Bank, Centre of Stream, etc., Face of Wall, Top of Bank, Centre of Stream, etc., Face of Wall, Top of Bank, Centre of Stream, etc., Face of Wall, Top of Bank, Centre of Stream, etc.

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON

AREAS

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4.267 parcel number, 1.879ha area in hectares, 4.47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features used for measurement of area. Limit of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.471 05. To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number, in this case TQ, and read the figures opposite this line on the north or south margin. Estimate tens of metres from the grid line to the point (distance) 058
- Take the two figures preceding the sheet number, in this case 29, and read the figures opposite this line on the east or west margin. Estimate tens of metres from the grid line to the point (distance) 291
- The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing. The resulting four figure number is the Northing. 291 058
- The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing. The resulting four figure number is the Northing. 291 058

For further information see 'An Introduction to the Progression for Ordnance Survey Maps and the National Reference System.'
