## COMPILATION DATA

Levelled ..... 1958
Boundaries ..... Aug 1973

† 1:2500 scale * 1:1250 scale (photographically reduced)

(a) Surveyed.
(b) Reconstituted from former County Series plans and revised.
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

## AREAS

Areas measurement is to plan edge only.
The number and area in hectares (ha) and acres, is shown within each parcel of land.

4267 ..... parcel number
EXAMPLE: 809ha ..... area in hectares
4·47 ..... area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area .....
Limit of area within which individual parcels are not shown .....

To convert hectares to acres multiply by 2·471 05
To convert acres to hectares multiply by 0·404 69

## NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

1. Take the two letters preceding the sheet number ..... TQ
2. Take the west edge of the grid square in which the point lies and read the figures opposite this label on the north or south margin ..... 058
   Estimate tens of metres from that grid line to the point (distance e) ..... 8
   The resulting four figure number is the Easting ..... 0588
3. Take the south edge of the grid square in which the point lies and read the figures opposite this label on the east or west margin ..... 291
   Estimate tens of metres from that grid line to the point (distance n) ..... 6
   The resulting four figure number is the Northing ..... 2916
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing ..... TQ 05882916

EXAMPLE from sheet TQ 0529
