

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelled.....1958.59
 Boundaries.....Sep 1976

(a) New 1965
 (b) Aug 1965
 (c) Aug 1976

1:2500 scale
 1:1250 scale (photographically reduced)

(a) Surveyed
 (b) Reconstituted from former County Series plans and revised.
 (c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
 Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
 The representation on this plan of a road track or path is evidence of the existence of a right of way.
 The alignment of tunnels where shown is approximate.

G.P.	Guide Post	P.H.	Public House	W.P.	Wind Pump
G.V.C.	Gas Valve Compound	P.O.	Post Office	W.P.	Water Point
H.	Hydrant or Hydraulic	P.T.	Police Telephone Pillar	W.T.	Water Tap
H.	Hydrant or Hydraulic				
L.B.	Letter Box				

SYMBOLS

Non-coniferous trees	Slopes	Site of antiquity
Coniferous trees	Cave entrance	Culvert
Surveyed trees	Direction of water flow	Rock
Orchard trees	Rock	Electricity Transmission Line
Coppice, osier	Roofed building	Triangulation station
Scrub	Glasshouse	Traverse station (permanent)
Heath	Archway	Surface mark
Trough	Marsh	Boundary meeting
Traverse Station	Satage	Face of Fence
Well	Reed	Face of Wall
Windmill		Rail of Hedge
Water Point		Side of River, etc.
Water Tap		Undefined

BOUNDARIES

England & Wales	Scotland
County	Region or Islands Area
Diocese	District
London Borough	Civil Parish (England)
Civil Parish (England)	Commonwealth (Wales)
Commonwealth (Wales)	Electoral Division
Electoral Division	Ward
Ward	Electoral Division
Constituency (Co or Boro)	Constituency (Co or Boro)
Boro Const. Bdy	Co Const. Bdy
Co Const. Bdy	Co Const. Bdy

AREAS

Area measurements in 10 plan edge only.
 The number and area in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
 4.47 area in hectares
 10.91 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
 Enclosures or features joined for measurement of area.
 Limits of area within which individual parcels are not shown.
 To convert hectares to acres multiply by 2.471 05
 To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 029

- Take the two letters preceding the sheet number TQ 029
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. Estimate tenths of metres from the grid line to the point (distance 1) 058
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. Estimate tenths of metres from the grid line to the point (distance 2) 291
- The full ten metre reference is given by writing the tenths followed by the Easting and then the Northing. The resulting four figure number is the Northing. To convert metres to feet multiply by 3.280 84.

For further information see an introduction to the Projection for Ordnance Survey Maps and the National Reference System.
