

SU 2434-2534

Made and published by the Director-General of the Ordnance Survey, Southampton.

Made and published by the Director-General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelled.....1958.59
Boundaries.....Apr 1972

1:2500 scale * 1:1250 scale (photographically reduced)
(a) Surveyed, (b) Reconstructed from former County Series plans and revised (c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director-General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists which may contain later levelling information, also particulars of bench marks to which no datum have been shown, are obtainable from the Director-General, Ordnance Survey.

The representation of a road, track or path is evidence of the existence of a right of way.

The alignment of sunials where shown is approximate.

SYMBOLS

	Non-coniferous trees		Site of antiquity
	Coniferous trees		Culvert
	Surveyed trees		Cave entrance
	Orchard trees		Direction of water flow
	Coppice, user		Electricity pylon
	Scrub		Electricity Transmission Line
	Rough grassland		Translocation station
	Mud/salt		Traverse station (permanent)
	Change of boundary marking		Bench mark
	Area A&AS symbols		Surface level
	Revision point and bench mark coincident		Revision point

BOUNDARIES

	England & Wales		Scotland
	County boundary		County of the City
	County of the City		District boundary
	Civil Parish boundary		Parly Constituency & Ward boundary

BOUNDARIES

	Base of Bank		Face of Fence		Top of Bank
	Centre of Bank		Face of Wall		Trunk of Hedge
	Centre of Stream		Side of River, etc.		Trunk of Stream
	Centre of Drain, etc.		Undefined		

AREAS

Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
1.807ha area in hectares
4.47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area are shown in the plan on which they are measured. Limits of area within which individual parcels are not shown.

To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the national grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows—

EASTING	NORTHING
Take west edge of 100 metre square in which point lies and read the figure opposite this line on the east or north margin. Estimate tens of metres from grid line to the point.	Take south edge of 100 metre square in which point lies and read the figure opposite this line on the east or north margin. Estimate tens of metres from grid line to the point.
EXAMPLE: 254	EXAMPLE: 336
TEN METRE REFERENCE: SU 2434 2534	TEN METRE REFERENCE: SU 2434 3364

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.
