BOUNDARIES  
ENGLAND & WALES  
County  
District  
London Borough  
Civil Parish (England)  
Community (Wales)  
Electoral Division  
Ward  
Constituency (County, Borough or European Assembly)  
Coincident boundaries are shown by the first appropriate symbol above, e.g. Borough & E.D. By

NATIONAL GRID REFERENCE  
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point or within 10 metres proceed as follows:  
1. Take the two letters preceding the sheet number. (EXAMPLE: from sheet TQ 0529)  
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. Estimate some of metres from the grid line to the point (distance in). (EXAMPLE: 058)  
3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. Estimate some of metres from the grid line to the point (distance in). (EXAMPLE: 291)  
4. The full ten metre reference is given by writing first the letters followed by the Easting and then by the Northing. (EXAMPLE: TQ 058916)  
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.
