

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA

Levelled.....1974
 Boundaries.....Sep 1979

1:2500 scale * 1:2500 scale (photographically reduced)

(a) Surveyed.
 (b) Reconstituted from former County Series plans and revised.
 (c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain lesser levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey. They represent the plan of a road track or path in accordance with the existence of a right of way. The alignment of tunnels where shown is approximate.

H.M.	Hill Mast				
L.B.	Letter Box				

SYMBOLS

	Non-coniferous trees		Slopes
	Coniferous trees		Cave entrance
	Surveyed trees		Direction of water flow
	Orchard trees		Pylon
	Coppice, osier		Electricity Transmission Line
	Boulders		Triangulation station
	Sloping masonry		Traverse station (permanent)
	Roofed building		Bench mark
	Glasshouse		Surface level
	Archway		Revision point
	Change of boundary marking		Revision point & bench mark coincident
	see AREAS notes		

BOUNDARIES

	ENGLAND & WALES boundary		SCOTLAND boundary
	County boundary		Region or Islands Area boundary
	District boundary		Civil Parish (England) boundary
	Civil Parish (Wales) boundary		Electoral Division boundary
	Ward boundary		Constituency (County, Borough or European Assembly) boundary
	Euro Const Bdy		Borough Const Bdy
	Euro Const Bdy		Co Const Bdy

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

- Take the two letters preceding the sheet number..... TQ 058
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058
- Estimate tens of metres from the grid line to the point (distance n)..... 4
- The resulting four figure number is the Northing..... 0584
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin..... 291
- Estimate tens of metres from the grid line to the point (distance n)..... 6
- The resulting four figure number is the Easting..... 2916

The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing..... TQ 058416

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'..... TQ 058416
