

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA

Levelled.....1974
Boundaries.....Oct 1979

1:2500 scale
(b) Jul 1979

1:1250 scale (photographically reduced)

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark (BM) values which may contain later levelling information and precursors of bench marks to which (BM) values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right-of-way.
The alignment of tunnels where shown is approximate.

G.P.	Guide Post	P.O.	Post Office	Wk.	Works
G.V.C.	Gas Valve Compound	Pb.	Public House	W.P.	Water Point
H.	Hydrant or Hydraulic	P.T.P.	Police Telephone Pillar	W.T.	Water Tap
M.	Mill				
L.B.	Letter Box				

SYMBOLS

Non-coniferous trees	Slopes	Site of antiquity
Coniferous trees	Cliff	Culvert
Surveyed trees	Cave entrance	Direction of water flow
Orchard trees	Rock	Pylon
Coppice cover	Boulders	Electricity Transmission Line
Scrub	Sloping masonry	Triangulation station
Heath	Roaded building	Traverse station (permanent)
Bracken, rough grassland	Glasshouse	Bench mark
Public Convenience	Archway	Surface level
Well	Change of boundary marking	Revision point
Windmill	Water Point	Revision point & bench mark coincident
Works	Water Tap	

BOUNDARIES

England & Wales	Scotland
County	Region or Islands Area
District	District
London Borough	Civil Parish (England)
Civil Parish (England)	Community (Wales)
Community (Wales)	Electoral Division
Electoral Division	Not shown
Ward	Electoral Division
Consistency (County, Borough or European Assembly)	Ward
	Consistency (County, Borough or European Assembly)

BOUNDARIES

Region or Islands Area	Region or Islands Area
District	District
Civil Parish (England)	Civil Parish (England)
Community (Wales)	Community (Wales)
Electoral Division	Electoral Division
Ward	Ward
Consistency (County, Borough or European Assembly)	Consistency (County, Borough or European Assembly)

BOUNDARIES

Region or Islands Area	Region or Islands Area
District	District
Civil Parish (England)	Civil Parish (England)
Community (Wales)	Community (Wales)
Electoral Division	Electoral Division
Ward	Ward
Consistency (County, Borough or European Assembly)	Consistency (County, Borough or European Assembly)

AREAS

The number and area, in Hectares (Ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267.....parcel number
1.809ha.....area in hectares
4.47.....area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area are shown within each parcel of land. Limit of area within which individual parcels are not shown.....

To convert hectares to acres multiply by 2.47105
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number.....TQ 058
- Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin.....058
- Estimate east of metres from the grid line to the point (distance 43).....43
- The resulting four figure number is the Easting.....0588
- Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin.....291
- Estimate east of metres from the grid line to the point (distance 10).....10
- The resulting four figure number is the Northing.....2910
- The full six figure reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 05882910

For further information see An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.
