

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA
Levelled 1952.74
Boundaries Dec 1979
(b) Apr 1979

T 1:2500 scale * 1:1250 scale (photographically reduced)
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Surveys of change since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.
HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark (BM) which may contain laser levelling information and particulars of bench marks to which no vertical here been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

AN ST8234-8334

SYMBOLS table listing symbols for features like Non-coniferous trees, Coniferous trees, Surveyed trees, Orchard trees, Coppice, Scrub, Heath, Bracken, rough ground, Marsh, Wood Pump, Reeds, Slopes, Cliff, Cave entrance, Rock, Boulder, Sloping masonry, Roofed building, Glasshouse, Archway, Change of boundary marking, Area notes, Revision point, Site of antiquity, Cultures, Direction of water flow, Pylon, Electricity Transmission Line, Triangulation station, Traverse station (permanent), Bench mark, Surface level, Revision point & bench mark coincident

BOUNDARIES table listing symbols for England & Wales, Scotland, County, District, Civil Parish (England), Community (Wales), Electoral Division, Ward, Constituency (County, Borough or European Assembly), Euro Const Bdy, Euro Const Bdy, Euro Const Bdy, Euro Const Bdy

BOUNDARIES table listing symbols for Boundary mergings, Centre of Bank, Centre of Stream, etc., Face of Fence, Face of Wall, Track of Hedge, Side of River, etc., Top of Bank, Track of Hedge, Track of Stream, Undefined

AREAS
Area measurements in this plan are in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
1.879ha area in hectares
4.647 area in acres
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:
1. Take the two letters preceding the sheet number. EXAMPLE from sheet TQ 0529 TQ 058
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. 058
3. Estimate tens of metres from the grid line to the point (distance 0.8). The resulting four figure number is the Easting. 0588
4. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291
5. Estimate tens of metres from the grid line to the point (distance 0.1). The resulting four figure number is the Northing. 2916
6. The final two figure number is given by writing first the letters, followed by the Easting and then by the Northing. TQ 05882916
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'
