BOUNDARIES

- ENGLAND & WALES
County
District
London Borough
Civil Parish (England)
Community (Wales)
Electoral Division
Ward
County Boundary
Borough Council
Euro Council
Scotland
Region or Islands Area
District
Not shown
Electoral Division
Ward
County Boundary
Borough Council
Euro Council
Borough Council & Euro Council
Euro Council & Euro Council
Coincident boundaries are shown by the first appropriate symbol above, e.g. Borough Council & Euro Council.
For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area exists.

AREAS

Area measurement is to plan edge only. The number and area in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 1.809ha area in hectares 4.47 area in acres. When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area are shown. Limit of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.471 05. To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference - defining the position of a point to within 10 metres proceed as follows: 1. Take the two letters preceding the sheet number. 2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. 3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. 4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing. For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.
