

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

**AREAS**  
Area measurement is to plan edge only.  
The number and area, in hectares (ha) and acres, is shown within each parcel of land.  
EXAMPLE: 4267 parcel number 1809ha area in hectares

When identifying a parcel it is important to specify the number of the plan on which it falls.  
Enclosures or features joined for measurement of area  
Limit of arable within which individual parcels are not shown  
To convert hectares to acres multiply by 2.47105  
To convert acres to hectares multiply by 0.40469

**NATIONAL GRID REFERENCE**  
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:  
EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number TQ 0529  
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. Estimate tenths of metres from the grid line to the point (distance x) 8 098  
The resulting four figure number is the Easting.  
3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. Estimate tenths of metres from the grid line to the point (distance y) 6 291  
The resulting four figure number is the Northing.  
4. The full ten figure reference is given by writing first the letters, followed by the Easting and then by the Northing TQ 052916  
For further information see an introduction to the Projection for Ordnance Survey Maps and the National Reference System.

**COMPILED DATA**  
Levelled.....1952  
Boundaries.....Oct 1979  
(a) Surveyed  
(b) Reconstituted from former County Series plans and revised.  
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.  
HEIGHTS are given in METRES above the Newlyn Datum.  
Bench mark ticks which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation of a road, track or path is evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

**ABBREVIATIONS**

B.H.	Beer House
B.M.	Bench Mark
B.P.	Boundary Post
B.S.	Boundary Stone

**BOUNDARIES**

England & Wales
County
District
London, Borough
Civil Parish (England)
Community (Wales)
Electoral Division
Ward
Consistency (County, Borough or European Assembly)
Scotland
Region or Islands Area
District
Noe shown
Electoral Division
Ward
Consistency (County, Borough or European Assembly)

**BOUNDARIES**

Concurrent boundaries are shown by the first appropriate symbol above, e.g. Borough Cons. & ED Bdy.
For Ordnance Survey purposes County boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.
Boundary markings
Face of Fence
Face of Wall
Roof of Hedge
Side of River, etc.
Top of Bank
Track of Hedge
Track of Stream
Undefined

**BOUNDARIES**

Base of Bank
Centre of Bank
Centre of Covered Stream
Centre of Drain, etc.
Centre of Road, etc.
Centre of Stream, etc.
Detached
Edge of Kerb
Imperial measurements for metric boundary markings
0.91m = 3ft
1.52m = 5ft
