

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA

Levelled.....1952
Boundaries.....Feb 1979

(a) Aug 1978

1:12500 scale * 1:12500 scale (photographically reduced)

(a) Surveyed.
(b) Reconstructed from former County Survey plans and revised.
(c) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain level information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of roads, creeks or paths is evidence of the existence of a right of way.
The alignment of symbols where shown is approximate.

Made and published by the Director General of the Ordnance Survey, Southampton.

AREAS

Area measurements in plan only.
The number and area in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4.27 parcel number
1.807ha area in hectares
4.47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area
Limits of area within which individual parcels are not shown
To convert hectares to acres multiply by 2.4745
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number. TQ 0529

2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. 058

3. Take the east edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291

4. The full ten metre reference is given by writing first the letters followed by the figure and then by the bearing. TQ 058291
