SYMBOLS table listing symbols for features like Non-coniferous trees, Coniferous trees, Surveyed trees, etc.

BOUNDARIES table listing symbols for England & Wales, Scotland, and Boundary Mergings.

AREAS table explaining how to read area measurements and providing an example.

NATIONAL GRID REFERENCE: The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows: 1. Take the two letters preceding the sheet number... 2. Take the west edge of the grid square in which the point lies... 3. Take the south edge of the grid square in which the point lies... 4. The full six figure reference is given by writing first the letters followed by the Easting and then by the Northing.
