LAN ST 9425-9525

ABBREVIATIONS table listing symbols for various features like Beer House, Bench Post, Boundary Stone, etc.

SYMBOLS table listing symbols for various features like Non-coniferous trees, Coniferous trees, Surveyed trees, etc.

BOUNDARIES table listing symbols for various boundaries like England & Wales, County, District, etc.

BOUNDARIES table listing symbols for various boundaries like Scotland, Region or Islands Area, Civil Parish, etc.

AREAS
Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4.267 parcel number
1.8579ha area in hectares
4.47 area in acres
NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows: -
EXAMPLE from sheet TQ 0519
1. Take the two letters preceding the sheet number TQ 058
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin 058
3. Take the east edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin 6
4. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin 291
The resulting four figure number is the Easting 0586
5. Take the north edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin 059
The resulting four figure number is the Northing 059291
The full ten metre reference is given by arranging first the letters, followed by the Easting and then by the Northing. (Ordnance Survey)
