NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:
1. Take the two letters preceding the sheet number. EXAMPLE from sheet TQ 0529
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. 058
3. Take the east edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291
4. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 058
5. Take the north edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291
The resulting four figure number is the National Grid Reference.
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'

AREA
Area measurements are in plain edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
1.807ha area in hectares
4.47 area in acres
When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area
Limit of area within which individual parcels are not shown
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

LEGEND
B.B. Base of Bank
C.B. Centre of Bank
C.C.S. Centre of Covered Stream
C.D. Centre of Drain
C.R. Centre of Road
C.S. Centre of Stream
C.F. Face of Fence
D. Disused
E.K. Edge of Kerb
F.W. Face of Wall
H. Hedge
R. Road
S. Side of River, etc.
T.B. Top of Bank
T.H. Track of Hedge
T.S. Track of Stream
U. Undefined
F.F. Face of Fence
R. Road
S. Side of River, etc.
T.B. Top of Bank
T.H. Track of Hedge
T.S. Track of Stream
U. Undefined

Imperial equivalents for metric boundary markings:
0.91m = 3ft 1.52m = 5ft
