### REFERENCE

For fuller information see Reference Card published separately.

#### NATIONAL GRID REFERENCE

The lines on the plan form part of the National Grid and are spaced at 100 metre intervals. To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows:-

EASTING		NORTHING	
Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins	Estimate tens of metres from the grid line	Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins	Estimate tens of metres from the grid line
