

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelling: 1952
Boundaries: Jun 1977
(a) Surveyed
(b) Reconstructed from former County Survey plans and revised
(c) Revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum. Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The alignment of tunnels where shown is approximate.

AN ST 9823-9923

Table of Abbreviations: B.H. Beer House, B.P. Bench Mark, B.S. Boundary Post, B.S. Boundary Stone, C.H. Church, Ch. Chimney, Ca. Capstan, D.F. Drinking Fountain, E.P. Electricity Pole or Pole, F.A. Fire Alarm, F.A. Fire Alarm Pillar, F.B. Fire Alarm Bell, F.S. Flagstaff, F.St. Fire Station, G.P. Guide Post, G.V.C. Gas Valve Compound, H. Hydrant or Hydraulic, L.B. Letter Box, L.C. Level Crossing, L.H. Lighthouse, L.T. Lighting Tower, M. Manse, M.H.W. Mean High Water, M.L.W. Mean Low Water, M.P. Mile or Mooring Post, P.A. Post, P.C.B. Police Call Box, P.C. Public Convenience, P.C. Pillar, Pole or Post, P.H. Public House, P.O. Post Office, P.P. Pump, P.T.P. Police Telephone Pillar, R.H. Road House, R.P. Revision Point, S. Stone, S.B. Signal Box, S.B. Sundial, S.L. Signal Light, S.P. Signal Post, S.P. Spring, S.S. Signal Station, T.C.B. Telephone Call Box, T.C.P. Telephone Call Post, T.K. Tank or Track, T.L. Trough, T.S. Traversing Station, W. Wall, W.B. Weighbridge, W.P. Water Pump, Wk. Works, W.P. Water Point, W.T. Water Tap

Table of Symbols: Non-coniferous trees, Coniferous trees, Surveyed trees, Orchard trees, Coppice, sizer, Scrub, Heath, Rough grassland, Marsh, Saltings, Reeds, Slopes, Cliff, Cave entrance, Rock, Boulders, Masonry, Roofed building, Glasshouse, Archway, Change of boundary marking, see AREAS notes, Site of antiquity, Culvert, Direction of water flow, Pylon, Electricity Transmission Line, Triangulation station, Traverse station (permanent), Bench mark, Surface level, Revision point and bench mark coincident

Table of Boundaries: ENGLAND & WALES: District, London Borough, Civil Parish (England), Community (Wales), Electoral Division, Ward, Constituency (Co or Boro); SCOTLAND: Region or Island Area, District, Not shown, Electoral Division, Ward, Constituency (Co or Boro); Boundary markings: C.S. Centre of Road, etc., C.S. Centre of Stream, etc., Def. Delimited, E.K. Edge of Bank, etc., Face of Fence, Face of Wall, Root of Hedge, Root of Tree, etc., Top of Bank, Top of Hedge, Track of Stream, Undeined

Table of Areas: Area measurement is to plan edge only. The number and area, in hectares (ha) and acres, is shown within each parcel of land. Example: 4267 parcel number, 1029ha area in hectares, 4.47 area in acres. When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area. Limits of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.47105. To convert acres to hectares multiply by 0.40469.

Table of National Grid Reference: The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows: Example from sheet TQ 6529. 1. Take the two letters preceding the sheet number: TQ 658. 2. Take the west edge of the grid square in which the point lies and read the figure opposite the true on the north or south margin: 058. Estimate tens of metres from the grid line to the point (distance in 100m): 8. The resulting four figure number is the Easting: 6588. 3. Take the south edge of the grid square in which the point lies and read the figure opposite the true on the east or west margin: 291. Estimate tens of metres from the grid line to the point (distance in 100m): 6. The resulting four figure number is the Northing: 2916. 4. The full ten metre reference is given by writing first the letters, followed by the Easting and then the Northing: TQ 65882916. For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.

Imperial equivalents for metric measurements: 1.22m = 4ft, 1.52m = 5ft
