CONVERSION SCALES

COMPILATION DATA

Levelled 1939, Boundaries Apr 1979. (a) Surveyed, (b) Reconstructed from former County Series plans and revised.

HEIGHTS are given in METRES above the Newlyn Datum. Bench mark less, which may contain laser levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation of the plan is not intended to be evidence of the existence of a right of way. The alignment of symbols where shown is approximate.

Table of abbreviations: B.H. Beer House, B.M. Bench Mark, B.P. Boundary Post, etc.

Table of symbols: Non-coniferous trees, Coniferous trees, Surveyed trees, etc.

Table of symbols: Slopes, Cliff, Cave entrance, etc.

Table of symbols: Site of antiquity, Culvert, Direction of water flow, etc.

Table of boundaries: England & Wales, Scotland, etc.

Table of boundary markings: Boundary markings, Face of Fence, etc.

AREAS

Area measurement is to plan edge only. The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4067 parcel number, 1.807ha area in hectares, 4.47 acres in acres.

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area are shown as one enclosure.

Limit of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.471 05. To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529. 1. Take the two letters preceding the sheet number. 2. Take the west edge of the grid square in which the point lies and estimate the number of metres from the grid line to the point (distance) in the Easting. 3. Take the south edge of the grid square in which the point lies and estimate the number of metres from the grid line to the point (distance) in the Northing. 4. The full six metre reference is given by writing first the letters TQ 052916, followed by the Easting and then the Northing.
