

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

COMPILATION DATA

Levelled 1979
Boundaries Jun 1979

† 1:2500 scale * 1:2500 scale (photographically reduced)
(a) Surveyed (b) Reconstructed from former County Series plans and revised (c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark data, which may contain laser levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

AREAS

Area measurement is to plan only.
The number and area, in hectares that and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
4.47 area in hectares
10.93 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area.

Limit of area within which individual parcels are not shown:
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

- Take the two letters preceding the sheet number: TQ 058
- Take the west edge of the grid square in which the point lies and estimate tens of metres from the grid line to the point (distance): 058
- Take the north edge of the grid square in which the point lies and estimate tens of metres from the grid line to the point (distance): 291
- The full ten metre reference is given by writing first the letters, followed by one figure and then by the Northing.

The resulting four figure number is the Northing: 2916 058 059

The full ten metre reference is given by writing first the letters, followed by one figure and then by the Northing.
